Upcoming *Open Schools at EPDS*

Visit Eastern Point Day School and learn why an EPDS Experience may be the right education for your child....

During the next few weeks, parents/guardians will be considering their children's 2012 – 2013 educational opportunities. Visiting schools is critical to finding the right match for students and their families. At *Eastern Point Day School*, we invite you to begin the process by attending *Open Schools at EPDS*.

Please take a few minutes to browse our website and learn more about *Eastern Point Day School* and our upcoming *Open Schools*. **Each *Open School* session and presentation is designed to provide parents/guardians and their children with a classroom lesson/activity experience, a tour of the school, and question/answer time with the headmaster and school officials.**

Eastern Point Day School in East Gloucester provides children with a multi-age education in small classrooms averaging 8 students, preschool (age 3) through eighth grade. An integrated, thematic curriculum with emphasis on 3 E Learning (Expeditionary, Experiential and Exploratory) gives students an opportunity to “learn and live” their education in the classroom and throughout the community. EPDS capitalizes on each student's strengths in individual settings, flexible groups and whole class lessons. Higher order thinking and teamwork are emphasized throughout the curriculum/program as students discover and apply skills and concepts to the “world around them”. Programs for Home School children provide opportunities for parents/guardians to work closely with the school to combine the “best of both worlds”. In addition to

Mathematics, Reading/Language Arts, Science and Social Studies, EPDS offers Art, Drama, Music, Physical Education and Spanish to all students weekly. An Extended Day program is available Monday – Thursdays until 5:00.

At Eastern Point Day School, all people treat each other with dignity and respect. EPDS provides a safe, secure and comfortable setting where children and adults can teach, learn, play and relax every day in a creative, challenging and supportive environment. EPDS values are Be Kind, Help Others, Keep Learning, Work Hard and Have Fun. Collaboration within the school and throughout the community is essential and fundamental to the most successful teaching and learning. *Eastern Point Day School* strives to provide every child with the best education in the true spirit of a school community.

We hope you will visit us during one of the following *Open Schools* to learn more about an *EPDS Educational Experience*.

Visit Us during “Open School at EPDS”
